What you get: A competitive salary | Accommodation support | A per-scan incentive | Funded CPD | A clear path to department lead

About Ebenezer

Ebenezer Clinic & Diagnostic Centre is a growing clinic on Main Street, Ibanda, offering outpatient care and diagnostics, including ultrasound and X-ray. We have recently upgraded to **3D ultrasound**.

Key responsibilities

- Carry out **ultrasound scans**: obstetric, abdominal, pelvic and other general scans, on our 3D machine.
- Take good-quality **X-rays** with correct positioning and exposure.
- Keep to **radiation safety** rules to protect patients, staff and yourself.
- Prepare patients, explain each procedure and respect their dignity and privacy.
- Write clear, **accurate reports** and keep complete imaging records.
- Care for the equipment: daily checks, cleaning and prompt fault reporting.
- Work closely with our clinicians and report urgent findings straight away.

The role

You will run our imaging service day to day. **Ultrasound is the heart of the job**, with X-ray alongside it, working with our clinicians so patients get clear images and a timely diagnosis.

Requirements

- ✓ **Diploma or degree** in Diagnostic or Medical Radiography (or Medical Imaging) from a recognised institution.
- ✓ Registered with the **Allied Health Professionals Council (AHPC)** Uganda, with a **valid practising licence**.
- ✓ **Proven ultrasound scanning skills.** Sonography training or a certificate is an added advantage.
- ✓ Sound knowledge of X-ray procedures and radiation safety.
- ✓ Good communication, a caring attitude and readiness to work full time in Ibanda.

Desirable: a big plus, not required

- ★ **Echocardiography** skills.
- ★ **ECG technician** skills: recording and preparing 12-lead ECGs.
- ★ Experience with **3D ultrasound**.
- ★ Good computer skills for reports and records.

How to apply

Apply online in about two minutes. Upload your **CV** (PDF, DOC or DOCX, up to 5 MB) with your AHPC registration and practising licence if you can.
